

Microsoft Dynamics 365 for Financials

BENEFITS TO EXTERNAL ACCOUNTING PROFESSIONALS

Microsoft Dynamics 365 for Financials helps you deliver accounting services and improve your customer's experience using a simple, powerful and collaborative cloud-based solution from Microsoft.

Dynamics 365 for Financials is a business management solution for small and mid-sized organizations that automates and streamlines business processes and helps you manage your clients' businesses through accounting services.

Improve client experience & support:

- **Manage your workloads** from the Accountant role center to get quick access to relevant features and data.
- **Boost efficiency** and business processes with automated tasks and workflows.
- **Deeply integrated with Microsoft Office 365** for ease of use and increased productivity.
- **Focus on client services and experiences** through a range of device options for optimal collaboration.
- **Offer deep business insight** through Microsoft insight capabilities like Power BI.
- **Fast from the start** with easy sign up through the Office 365 portal to help you get controlled and easy access to your clients' cloud solution.

Manage and grow your practice:

- **Audit utilization** through a suite of accounting capabilities to help you in your client and accountant relationship.
- **Scalable platform** to serve both small and medium-sized clients as they grow their business.
- **Collaborate with your customers** from anywhere using the cloud supporting the business process of you and any individual user.
- **Easy setup** to empower you to decide on chart of accounts, posting groups, and much more.
